Westminster Village Assisted Living is managed by the Administrator who is a licensed Nursing Home Administrator, and a Resident Services Manager who is a Registered Nurse. Both of these professionals are full-time and remain on-call 24/7 for the needs of the community.

Consistent Assignments are essential to provide consistent resident support, services, programming, and quality of life. Consistent assignments mean that the aide, nurse, dining services worker, and community life team member who cares for specific residents are the same person as often as possible.

A staffing plan is created with a blend of professional, certified, and non-certified team members. These include LPNs, Certified Nursing Assistants, and non-certified nursing assistants. Additionally, we further certify a select group of nursing assistants to be LLAMs which is the State of Delaware course for medication administration. The staffing plan is fluid and is adjusted to meet the needs of our resident population.

Each team member receives a comprehensive orientation upon hire and annually which includes additional education specific to caring and communicating with residents with dementia.
